NOTES TO THE INTERIM FINANCIAL REPORT FOR THE QUARTER ENDED 31 DECEMBER 2024

# Part B – Explanatory Notes Pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia (Cont'd)

# 12 Review of performance (Cont'd)

## (a) Property

## 4Q'24 vs 4Q'23

The Property segment's revenue and profit before taxation for the quarter ended 31 Dec 2024 decreased by 29% and 33%, to RM21.0 million and RM8.9 million, respectively.

The revenue decrease was primarily due to the absence of contributions from Bromelia and Andira Place projects, which were fully completed in the second and fourth quarter respectively, and absence of property sales from the completed BP Newtown (BPNT) project. However, this was partially offset by higher revenue generated from the ongoing project, Dahlia and newly launched projects, including Erica and BP Boulevard.

The profit before taxation decreased in line with the decline in revenue for the current quarter under review.

## 12M'24 vs 12M'23

Property segment's revenue for the period ended 31 December 2024 decreased by 30% to RM76.9 million, while profit before taxation decreased by 32% to RM30.8 million compared to the preceding corresponding period.

The decrease in revenue in the current period was mainly due to lower revenue recognition from the Bromelia and Andira Place projects which were fully completed in the second and fourth quarters, respectively. However, this was partially offset by higher revenue generated from the ongoing project and newly launched projects.

The decrease in profit before taxation was mainly due to lower revenue recognition in the current period under review.

(b) Plantation

#### 4Q'24 vs 4Q'23

Revenue for the current quarter under review increased by 43% to RM9.8 million, and profit before taxation increased by 113% to RM6.1 million compared to the preceding corresponding quarter.

Higher revenue and profit before taxation for the current quarter under review were primarily attributable to higher production of FFB and an increase in CPO price, leading to a higher average selling price of FFB.

#### <u>12M'24 vs 12M'23</u>

Revenue for the current period increased by 22% to RM30.9 million, while profit before taxation increased by 71% to RM14.2 million compared to the preceding corresponding period.

Higher revenue and profit before taxation for the current period under review were primarily attributable to higher production of FFB and an increase in CPO price, leading to a higher average selling price of FFB.

# Part B – Explanatory Notes Pursuant to Appendix 9B of the Listing Requirements of Bursa Malaysia (Cont'd)

## 13 Material changes in profit before taxation in current quarter vs preceding quarter

	Current	Preceding	
	Quarter	Quarter	
	Ended	Ended	Changes
	31 Dec 2024	30 Sep 2024	+/(-)
	RM'000	RM'000	%
Revenue	30,748	27,836	10%
Profit Before Taxation	16,257	12,609	29%

Revenue for the current quarter of RM30.7 million was higher than the preceding quarter of RM27.8 million by RM2.9 million, or 10%. This increase was mainly due to higher revenue from the Property and Plantation segments, which rose by RM1.2 million and RM1.7 million, respectively.

The higher revenue recorded by the Property segment compared to the preceding quarter was mainly attributable to increased revenue recognition from newly launched projects, Erica and BP Boulevard. However, this was partially offset by lower revenue recognised from Dahlia and absence of revenue contributions from Andira Places and the sale of units in BPNT.

The higher revenue generated by the Plantation segment compared to the preceding quarter was mainly due to increased FFB production and a rise in CPO prices, leading to a higher average selling price of FFB.

Profit before taxation for the current quarter of RM16.3 million was higher than the preceding quarter of RM12.6 million by 29%. This increase was primarily attributable to higher profit before taxation from both the Property and Plantation segments, in line with the increased revenue generated.

# 14 Commentary on prospects

The Malaysian property market remained strong in 2024, driven by positive economic growth and government policies. However, affordability concerns persist due to rising living costs. The Group remains cautiously optimistic for 2025, considering inflationary factors like fuel subsidies and electricity tariffs. Demand for well-established areas is expected to stay resilient, supported by steady household loan approvals and positive labour market conditions. The Group will focus on landbank expansion and sustainable development.

The palm oil industry faces adverse weather and labour shortages, though benchmark prices are expected to average RM4,350/MT in 2025. The Group continues cost-efficient manuring programs and estate worker sourcing to manage production costs. It also implements the plantation estate management system for better plantation monitoring.

Barring unforeseen circumstances, the Plantation and Property segments are expected to continue its growth and contribute to the Group's returns in the 2025. In addition to the business growth perspective, the Group will continue to embark on its sustainable practices across the business segments after receiving its Malaysia first landed property certified with Platinum GreenRE certification (provisional).
